STATUS OF THE PROJECT

The project "ENTRELAB - Enhanced ENTREpreneurial attitude in adult education for a better LABour market integration" is now more than halfway through! Let's take a closer look to the *ENTRELAB entrepreneurial Guide "European opportunities in entrepreneurial education"* and *ENTRELAB training kit "Entrepreneurial learning in adult education"*:

ENTRELAB ENTREPRENEURIAL GUIDE "EUROPEAN OPPORTUNITIES IN ENTREPRENEURIAL EDUCATION"

The *ENTRELAB entrepreneurial guide "European opportunities in entrepreneurial education"* is structured on three main parts: introduction, good practice examples and conclusion.

The first part of the entrepreneurial guide describes how the gap between education and business is closed in the Netherlands, Portugal, Italy and Greece, as countries involved in the Erasmus + KA2 Strategic Partnership Project for Adult Education "Enhanced ENTREpreneurial attitude in adult education for a better LABour market integration", how difficult is to start-up a company in the mentioned countries and presents the methodology and/or strategy for the recognition of the entrepreneurship skill (in case such a strategy exists) in the countries represented in the ENTRELAB project consortium and involved in the creation of this Intellectual Output.

The second part of the publication includes good practice examples from the training activities (courses and workshops) organised by the partners from the Netherlands, Portugal, Italy and Greece involved in the ENTRELAB consortium, with a focus on the use of ICT, gamification, entrepreneurship, team work and interdisciplinary training methods.

The third part explains that - as entrepreneurial empowerment cannot be taught by traditional means of communicating knowledge or through conventional instruction - the end mission of the project is the delivery of solid guidance on entrepreneurial learning in order to inspire trainers involved in adult education across Europe

ENTRELAB TRAINING KIT "ENTREPRENEURIAL LEARNING IN ADULT EDUCATION"

This training kit has as the start point and it is based on the content and results of the training course for teachers and trainers working with students at different education levels and types (e.g. primary, secondary, VET) organised by Quarter Mediation in Assen, The Netherlands, from 18th to 20th of September 2019.

The participants, representatives of the partner organisations involved in the ENTRELAB project consortium, were involved in indoor and outdoor training activities based on learning-by-doing, gamification and interdisciplinary methods of teaching, with the ultimate goal to empower the trainees with an entrepreneurial initiative and entrepreneurial mind-set.

The three days short term training activity targeted the teaching and training staff of the partner organisations involved in the project - teachers, trainers, adult educational staff - involved in delivery within their organisation of educational activities focused on the development of entrepreneurial mind-set and entrepreneurial initiative. The participants were, therefore, part of the target group of professionals targeted by the project.

More information can be found on the project website www.entrelab.eu.
