## ENTRELAB training kit "Entrepreneurial learning in adult education"

The content of the training kit started from the training course organised in the Netherlands in September 2019 and has been completed with conclusions, and recommendations of improvement, including tips on how to adapt the "ENTRELAB training kit" to the adult educational environments from the partner countries. It has at the start point the training course for teachers and trainers working with students at different education levels and types (e.g. primary, secondary, VET) based on learning-by-doing and interdisciplinary training, with the ultimate goal to empower the trainees with an entrepreneurial initiative and entrepreneurial mind-set.
